## FORT DE RUSSY ITEMS

The arrival of the transport from the Coast was the cause of many of the old members of the engineers visiting this post and seeing the workings of the engineer troops of this island. A number of the visitors were with the members of this camp when stationed in Cuba and were given a warm reception during their stay here. These men are going to the islands with the cavalry and signal corps to join the engineer forces stationed there.

### To the Coast.

Corporal Albert Barbour, late of Company G, Engineers, left for the Coast on the transport and will return to Chicago. Since his discharge at this post he has been at work in the engineer department in Honolulu. Private Challen of Company G also left on the transport for the bakers' school in San Francisco, where he will remain until he has completed the course of instruction there and has been ordered to return for duty with his company.

### Furlough.

Corporals O'Neill and Preeke, both of the engineers, have been granted furloughs from this post. Both of these men will spend their leaves of absence in Honolulu—Corporal O'Neill in the city and Corporal Preeke in Wahiawa. It is expected that they will return for duty the last of the present month.

### Details.

Private Ketchum of Company G has been detailed as orderly at post headquarters, relieving Mustean McElroy, who has been sent to the post hospital for treatment. Private Henry of the same company has been detailed as post guard, relieving Private Lewis, who has been detailed as assistant plumber in the quartermaster department. Private Draighough has been detailed as post electrician, relieving Private Howen, who has been ordered to the survey detachment for duty.

### To Hospital.

Private Racoul of the engineers has been sent from his detachment at Wahiawa to the post hospital here for treatment. Private Patterson, who has been in the post hospital, has been returned to his company for duty, and will leave for his survey detachment within the next few days. Private Protke has been returned to duty from the hospital, and has left for his detachment at Wahiawa.

### Supplies.

All the quarterly supplies for the quartermaster, engineer and ordnance departments of this post were received here yesterday, and most of

them are stored at this camp. In some cases the engineer property was sent to the survey detachments, but most of it will be forwarded within the next few days by wagon and pack trains. A large amount of supplies were received for these trains, and their work will now be greatly increased. A shipment of wagons and new animals is expected within a very short time, all of which will be used in supplying the subcamps with survey articles.

### To Camp.

Corporal Emmerson of the Koko Head detachment has been ordered to this camp for duty in the post drafting room relative to the plotting of the survey notes here. Corporal Terrien of the Alea detachment has arrived at this post and will remain here for duty, taking over the work of Corporal Preeke, who is now on furlough. A number of the members of the survey detachments have been visiting the home camp, but all have now returned to their detachments for duty.

## FORT SHAFTER NEWS FIELD AND BARRACKS.

Many of the boys from the transports were at the post Tuesday and Wednesday shaking hands with their old friends at this post.

### Musketry School.

The following men left on the transport Tuesday for Presidio of Monterey, Cal., where they will take a four-month course of instruction at the school of musketry: Corporal Thomas E. Reed, Co. E; Corporal Paul A. Falkenstein, Co. G, and Corporal Edward F. Curran, Co. H, 20th Infantry.

Private Roy Jones, Co. E, 20th Infantry, and Private Willie W. Williams, Co. G, 20th Infantry, departed Tuesday for Presidio of San Francisco, Cal., where they will take a four-month course in the school for cooks and bakers.

Private 1st Class Ormie B. Cauder, Hospital Corps, Fort Shafter, departed on the transport Tuesday for the depot of recruits and convalescents, Fort McDowell, Angel Island, Cal., where he will be honorably discharged from the service. Mr. Cauder left many friends in Honolulu who were sorry to see him leave. The good wishes of many follow him.

### Sick Go to Coast.

Private William R. Price, Troop K, 14th Cavalry, and Private Dominik Tyczkowski, Company H, 20th Infantry, who have been under treatment at the Fort Shafter post hospital for some time, left on the transport Tuesday for the general hospital, Presidio, San Francisco, Cal., where they will be under further observation and treatment.

## Y.M.C.A. TO HOLD ANNUAL MEETING

The Y. M. C. A. will hold its annual meeting on Thursday evening April 28 at 8 o'clock. A nominating committee composed of Harold Dillingham, C. H. Atherton and S. J. Pratt has been appointed to nominate officers for the coming year, and fill vacancies in the Board caused by E. O. Hall and Geo. F. Davies, who have left the city for the coast.

The election of officers for the ensuing year will also take place. A unique idea in the way of presenting reports has been devised which will make this feature of the program interesting. C. J. Huan and the Social Committee are planning the social features of the evening. This annual meeting will be the "round-up" for the month of April.

A meeting has been called for Tuesday afternoon at 4 o'clock to complete the organization of the Grammar School Athletic League, elect officers and draft a program of athletics for this spring and the coming year.

The success of this league has been assured as all the grammar schools including Punahou Preparatory school, Kanehahala school and St. Louis College have joined the League. A meeting was held at Central Grammar School last Wednesday at which the matter was presented to the students. A similar meeting will be held at Kaa-humahu school next Wednesday for the same purpose and at other schools later on; dates for which have not as yet been arranged.

### ODD THINGS ON TRAINS.

On a mountain railway near Salzburg a railway carriage is actually fitted with a balloon. At the mountain top a tank below the car is filled with water sufficient to counteract the upward pull of the gas bag, which the vehicle thus drags down with it upon the return journey.

Trains are frequently being put to odd uses. The window of a railway saloon in Denmark forms a royal autograph album. Royal visitors scratch their names on one of the panes, which now show among others the childhood names of sovereigns.

The vestibule to the train belonging to the German Emperor holds several fine statues; the car constructed for President Diaz of Mexico contains a complete veranda; and that belonging to the viceroy of India is roofed with water tanks which contribute toward coolness and furnish water for domestic purposes on the train.

Russia's important trains carry a car above which rises a little belfry containing a chime of bells.—Stray Stories.
